

Dear Chairman Powell,

Please release the text regarding broadcast ownership and allow Congress and the American people a chance to discuss this issue. By not releasing the text of this powerful and dangerous rule change you are undermining our democracy.

Allowing fewer corporations to control the airwaves is DANGEROUS business. The vitality and democratic spirit of our country is based on free speech. You know very well that TV is the greatest means of communications in the world. If you enact rules that promote monopolies in the ownership of networks our society is doomed. This is why our soldiers are fighting and dying in Iraq to ensure more freedom for the people of Iraq. What kind of example are we setting if you pass this rule change. If you love our country and our way of life PLEASE DON't DO IT!!!!!!
